DIDADI
BY KEYVELLE

THE COLLECTION

DIDADI *Shower & Bath*

DIDADI is the bathroom brand of the KEYVELLE hospitality FF&E family. This collection presents shower systems, basin mixers and bath accessories selected and styled for five-star guest bathrooms, in finishes that run consistently across every room type.

The collection is organised into four style series that mirror KEYVELLE cabinetry, and is styled to complete DIDADI vanities, toilets and shower enclosures in one bathroom scheme. Each series offers a short, focused range in several finishes, so a brand standard can be set once and rolled out from standard rooms to suites.

THE KEYVELLE FAMILY	
SUTA	Bedding
DIDADI	Vanities · Toilets · Shower enclosures · Shower & bath hardware
SIHI BY KEYVELLE	Seating, sofas & tables
KEYVELLE	Cabinetry · Carpet · Lighting · Smart control · Drapery

01
FOCUSED
11 products across four style series

02
MULTI-FINISH
9 finishes, 32 finish variants

03
COORDINATED
Completes DIDADI bathrooms and KEYVELLE cabinetry

THE COLLECTION

Four styles. 11 products. *Every finish.*

Suite Fully concealed, feature finish	DD-BA01 · BM02 · BM03	DD-BA01 · BH02 · BH03	DD-BA01 · BA02 · BU03	DD-BA01 · BA02 + accessory set

Recommendations are indicative. Concealed systems (Series IV) can be specified in the finish of any series. Final selection is confirmed against each project's bathroom layouts, water pressure and brand standards.

Completes with DIDADI *vanities, toilets & shower enclosures*

Each series is styled to complete a DIDADI bathroom, with KEYVELLE vanity cabinetry as an option. The table gives the design direction for each pairing; DIDADI vanity, toilet and shower-enclosure models, sizes and finishes are selected per project from the DIDADI range.

SERIES	DIDADI vanities	DIDADI toilets	DIDADI shower enclosures
I · Warm Minimal KEYVELLE cabinetry: Halo · Solace · Arc	Light oak, matte white or cream vanity fronts; pale stone tops	White ceramic, soft-close seat	Clear glass; white, cream or gunmetal profiles
II · Heritage Classic KEYVELLE cabinetry: Manor · Wren · Chalk	Painted or walnut vanities; marble tops	White ceramic, classic profile	Clear glass; brushed gold or polished chrome profiles
III · Urban Contemporary KEYVELLE cabinetry: Umber · Carbon	Dark oak or charcoal vanities; concrete-toned stone	Wall-hung white or matte black	Clear or grey glass; gunmetal or matte black profiles
IV · Architectural Concealed Pairs with every KEYVELLE cabinetry series	Wall-hung vanities with clear tops for wall-mounted spouts	Wall-hung with concealed cistern	Frameless or minimal-profile walk-in screens

SERIES I

Warm Minimal

Soft whites, quiet geometry

Cream and soft-white finishes with gunmetal counterpoints and clean, square geometry. Warm Minimal pairs with light-oak cabinetry and pale stone for calm, residential-feeling guest bathrooms.

SPECIFICATION

Technical & Customisation

Every product is specified per project. Technical data not documented in this catalogue is confirmed in the project specification sheet before samples are approved.

01

BODY & CARTRIDGE

Body material, cartridge type and size, and valve technology (manual or thermostatic) specified per product and project.

02

FLOW & PRESSURE

Flow rates, flow regulators and operating pressure range set against the project's water-efficiency targets and local regulations.

03

FINISHES

Finishes as listed per product. Colour, sheen and coating process confirmed by physical sample; cross-brand finish matching with DIDADI by sample.

04

CONFIGURATION

Outlet combinations, head sizes, arm lengths and accessory sets selected per room type and bathroom layout.

No technical values are stated in this catalogue unless documented in the source information. Electronic features (digital display, ambient light, timer) require confirmation of power source and electrical safety approval per project.

Quality & Compliance

The standards below are those typically requested by international hotel groups for shower and tapware products. Testing to the applicable standards is arranged per project, product and destination market.

STANDARD	SCOPE
WaterSense (EPA)	Water-efficiency labelling for lavatory faucets and showerheads (USA)
ASME A112.18.1 / CSA B125.1 (cUPC)	Plumbing supply fittings (North America)
EN 817 / EN 1111	Mechanical mixing valves / thermostatic mixing valves (Europe)
NSF/ANSI 61 & 372	Drinking-water system components; lead content
WRAS	Water Regulations Approval Scheme (United Kingdom)
ACS	Attestation de Conformité Sanitaire (France)
EN 248	Electrodeposited nickel-chrome coatings for sanitary tapware
Electrical safety (IEC 60335 / local)	For products with digital display, lighting or timer

Compliance depends on the specified body material, cartridge, flow regulator and finish and is confirmed in writing for each project.

WORKING TOGETHER

Project Process

01
BRIEF
Room types, keys, bathroom layouts, brand standards and water-efficiency targets.

02
SELECTION
Series, product and finish selection; DIDADI and cabinetry coordination.

03
SPECIFICATION
Technical data sheets, flow and pressure confirmation.

04
QUOTATION
Formal request for quotation answered with scope and lead time.

05
SAMPLES & MOCK-UP
Finish samples and model-room mock-up for approval.

06
PRODUCTION & QC
Manufacturing and inspection to the agreed specification.

07
LOGISTICS
Packing and delivery arrangements agreed per project.

08
INSTALLATION
Installation guidance and after-sales scope agreed per project.
